https://www.linkedin.com/in/harshini-s-b8b368284

CAREER OBJECTIVE

I am a highly motivated Electronics and Communication Engineering graduate with practical experience in Embedded Systems, and IoT.My passion lies in utilizing innovative technologies to solve real-world problems. I thrive in dynamic environments and am eager to contribute positively to a forward-thinking software company

EDUCATION

B.E Electronics and Communication Engineering

SRM TRP Engineering College — **CGPA | 8.16**

11/2021 - 05/2025 Trichy

HSC

SBOA Matric Higher Secondary School — **Percentage| 88.8%**

06/2020 - 05/2021 Madurai

SSLC

SBOA Matric Higher Secondary School — **Percentage| 87.7%**

06/2018 - 05/2019 Madurai

INTERNSHIP EXPERIENCE

Machine Learning Intern

e-soft IT solutions

07/2024 - 08/2024 Trichy

- Completed an on-site intern in machine learning and gained hands-on experience with specific tasks like data cleaning, data analysis and data visualization

Embedded Systems Intern

Codebind Technologies

07/2023 - 07/2023 Trichy

- Developed embedded application on Arduino using C for sensor based automation projects and gained expertise in Embedded systems architecture and communication protocols

PROGRAMMING SKILLS

JAVA HTML OOPS MySQL JavaScript

CERTIFICATION

Image Processing Onramp - Mathworks

Deep learning using Pytorch - Coursera

Networking Essentials Programme - CISCO Networking Academy

FullStack Development - Unique Innovibe Solutions

SKILLS

Technical Skills

Internet Of Things, Embedded Systems, Networking Systems

Soft Skills

Adaptability, Emotional Intelligence, Teamwork

PROJECTS

4-Port Octagonal Shaped MIMO antenna for UWB Applications

02/2025 - 05/2025

Project focused on enhancing wireless communication Performance

- This System is designed and simulated by CST microwave studio (HFSS) offers high-speed, reliable wireless communication making it ideal for modern UWB Applications

RF based Vehicle Speed Controller

02/2023 - 03/2023

Project focused on enhancing road safety

- This system leverages RF transmitter and receiver to automatically slow down Vehicles in sensitive areas like schools and hospitals to promote safer driving
